PAUL LaBONTE, MAYOR.

INAUGURAL ADDRESS

OF

PAUL LaBONTE,

MAYOR OF SOMERSWORTH,

TO THE CITY COUNCIL,

MARCH 18, 1913.

34079

INAUGURAL ADDRESS.

To the Members of the City Council:

As the chief magistrate of the city of Somersworth, again the duty befalls me to speak with you relative to the affairs of our municipality. At this time, I wish to express my appreciation of the honor conferred upon me by a large majority of the citizens of our city, as shown by the returns of the election just held. Last year, upon my inauguration into office, I could not feel other than that a very important trust had been placed in my hands, but now, as I start on my second year, it seems as though I am under greater obligations than before; and though, of course, the legal duty is no larger, the moral obligation is vastly greater than upon my inception into office last year, by reason of the confidence shown in me by so many of our citizens, after one year spent in serving you as Mayor.

During the last year, I have aimed to practice economy in the use of city funds in each and every department, in so far as such economy was conducive to the good welfare and best interests of our city and tax-payers therein.

HIGHWAYS.

Last summer a new piece of macadamized road was built on High street, extending from Pearl street to Washington street. A new gravel road was built on what is commonly known as the "Salmon Falls road", extending from the Standard Oil station to the Rollinsford line. Another piece of gravel road was put in, running from near the premises of Ernest S. Foss to the Canute farm. Our State road has been treated with asphalt oil, so that the stretch of road from Pearl street to the line of the city of Dover has been pronounced by some to be one of the best pieces of road in the State.

We have laid new sidewalks on Depot, South, Main and Linden streets; have re-covered the sidewalks on a number of streets, and, taken as a whole, this department of our city government has enjoyed a very busy year.

I recommend that the stretch of road lately built on High street be oiled, so that it may become durable and lasting, and be in the same condition as the remainder of the road to Dover. I recommend, further, that we continue building as much as we are able on the State road, so called, so that eventually we may join the city of Rochester and have a good highway between the two cities.

The macadam on High street, from Washington to Fore street, also that extending from Washington to Franklin street, on Main street, has become badly worn, and I recommend that these two pieces of roadbed be relaid, if our finances will allow us to do so.

I desire also to suggest an innovation, in so far as our city is concerned, with reference to keeping our streets in a cleanly condition, and clear of all waste and refuse matter which may accrue from time to time. To that end, I suggest that the street department retain one man, whose duty it shall be to keep the city's main thoroughfares free of all paper, excrement, and all waste material. It seems to me that we should have our streets clean, and the expense incurred would be a very small matter, as compared with the gain made by having neat-appearing and sanitary streets.

SCHOOLS.

Education of the young has become one of the most essential functions of our city government. Our schools have been managed well during the last year. Financially, the department has carried out the administration of its affairs at less expense than the year preceding. Considering what an important matter the education of our youth is, let us join hands and work in harmony, that the interests of our children may be well served.

WATER WORKS.

The financial condition of the water works is very sat-

isfactory. During the past year plans and specifications have been received from three different firms of competent engineers for re-placing the smaller pump with a larger one, but nothing definite as yet has been done.

Under the orders of the special committee of the city council and the water commissioners, a contract has been made with the Electro Bleaching Gas Company to establish a plant at the pumping station under a guarantee that their liquid chlorine will kill all bacteria, and especially typhoid germs, and expect to have it installed in the near future.

About three hundred cubic yards of sand has been replaced on the filter bed, which we believe will be of great benefit.

FIRE DEPARTMENT.

The city has been exceedingly fortunate as regards any occasion for the use of the fire department. There have been very few fires, and those have been handled in a thoroughly efficient way by the firemen. Perhaps it should not be boasted of, but it is a fact that we have been without any serious conflagration for a long time. The fire alarm system has been far from satisfactory, and I believe will continue to remain so, at least until the location of the fire gong is changed.

FOREST GLADE CEMETERY.

The year just closed has been one of consistent improvement for this department, and the funds available for the care and maintenance of the same have been very judiciously managed.

The trust fund has increased substantially. Since the straightening of the street line a few years ago, necessitating the removal of the evergreen hedge, the board of directors have had in mind the erecting of a suitable iron fence, with the result that contributions were solicited from lot owners and their friends for defraying the expense of

the same. The returns were gratifying, but in order that there should be no delay, the city council voted to raise by note, in anticipation of these donations, not more than fifteen hundred dollars ($1,500 00). The material is now here and the work will be completed as soon as conditions permit.

The question of an ample water supply is a most serious one in dry seasons, and it is to be hoped that some means may be provided for extending the water service pipes throughout the cemetery.

Modern methods in cemetery work are constantly being introduced, and such of these as are practical and for the welfare of the department should be adopted.

PUBLIC LIBRARY.

Our public library has shown a steady improvement. The library room has been repaired to some extent, and we now have a nice, pleasant place for those to enter who may care to do so. Too much praise and thanks cannot be given to the library trustees for their earnest and able efforts in endeavoring to make the library a success in every particular.

ELECTRIC LIGHTS.

Our contract, entered into a little over a year ago with the Twin State Gas & Electric Company, is still in force and everything pertaining to such contract, generally speaking, appears to be working successfully. The only change in our system of lighting from one year ago is with reference to lighting our streets all night.

We have now lights from darkness to dawn every night, whereas formerly we were not allowed lights under certain conditions, for instance, on moonlight nights.

There is so much trouble and discussion arising continually over wiring and poles of the lighting and telephone

companies that I suggest the creating of a new committee, whose duty it shall be to dispose of the matter of poles and wires.

HEALTH.

In my remarks to you last year I made a statement to the effect that there is law enough on our statute books, if used by the health officers, to keep all parts of this city in a sanitary condition; that statement is just as true now as it was then, and I sincerely hope in the year to come that the board of health, by co-operation with the medical fraternity of this city, will be able by a rigid enforcement of the law to eradicate the contagious diseases with which our community has been threatened during the last few months.

PARKS AND PLAY-GROUNDS.

Public play-grounds are now deemed a necessity almost everywhere, more especially in those cities which have shown a progressive spirit. Play-grounds for our children have been a subject for discussion for some years, and I am heartily in favor of any project which will tend to give children a suitable place in which to play.

We should have at least two public parks in this city; one location for such a purpose which I have in mind particularly is the plot of land opposite the counting room of the Great Falls Manufacturing Company, and I recommend that we enter into negotiations with the proper parties for the purpose of obtaining the same to be used as a park for all our inhabitants.

CONCLUSION.

Gentlemen, I have spoken to you concerning a few of the propositions which will come before us for consideration during the ensuing year. As time goes on many things of which I have not spoken, some of which it is impossible to foresee at the present time, will come before us.

It is only by working together that we can accomplish that which we desire most, namely, to make Somersworth a good city and a well-managed one.

So let each of us make up his mind that he will dismiss any petty difference which he may have with his fellow citizen, or with his fellow official, and have but one watchword in any effort which he may exert as regards this city, and let that word be "for the good of Somersworth and all its citizens."

RESOLUTIONS.

In Favor of Borrowing Money in Anticipation of Taxes.

Resolved by the City Council of the City of Somersworth:

That the Committee on Finance be and hereby is authorized to borrow, in anticipation of taxes, for the City of Somersworth, in such amounts and at such times as may be deemed necessary to meet current expenses, at the lowest rate of interest obtainable, the sum of all amounts so borrowed not to exceed fifteen thousand dollars, and that the proper officers of the city be authorized to give the city's note therefor.

Passed March 26, 1912.

SOMERSWORTH, N. H., April 16, 1912.

Resolved: That the Committee on Printing be and hereby are authorized to have 500 copies of the City Report printed, for the fiscal year just closed.

Passed April 16, 1912.

Resolved: That a sum not exceeding $1500.00 be raised in anticipation of donations for reimbursement, for erecting an iron fence at Forest Glade Cemetery, and that the proper officers give the city's note therefor.

Passed April 30, 1912.

In Favor of a Series of Band Concerts.

Resolved by the City Council of the City of Somersworth:

That the sum of two hundred and fifty dollars ($250) be and hereby is appropriated, from money in the hands of the city treasurer, not otherwise appropriated, for a series of band concerts.

Passed June 4, 1912.

In Favor of Borrowing Money in Anticipation of Taxes:

Resolved by the City Council of the City of Somersworth:

That the Committee on Finance be and hereby is authorized to borrow, in anticipation of taxes, for the City of Somersworth, in such amounts and at such times as may be deemed necessary to meet current expenses, at the lowest rate of interest obtainable, the sum of all amounts so borrowed not to exceed fifteen thousand dollars, and that the proper officers of the city be authorized to give the city's note therefor.

Passed June 4, 1912.

In Favor of Better Laws Being Enacted in the Matter of Property Taxation.

Resolved: That the present mode of taxing property, whereby the local Board of Assessors is under the direct supervision and control of the State Tax Commission, does not, as a practical proposition, give the tax-payers, in general, a fair deal. That the assessment just made for the present year is unfair and contrary to right and justice in many cases.

And we hereby express our opinion that it is the duty of each and every person interested in the welfare of the tax-payers of this city, especially those who are members of the January, 1913, Session of the General Court, to do their utmost, in order that better laws may be enacted with reference to the question of property taxation.

Passed August 7, 1912.

In Favor of Bonding the Outstanding Notes Against the City.

Resolved: That the Committee on Finance be and hereby are authorized and empowered to bond all the outstanding notes against the city, at a rate not to exceed 3½ per cent., and for a term of twenty years.

In Favor of Referring the Matter of Removing the Brown-Tail Moth Nests to the Committee on Roads, Bridges and Drains, with Power to Act.

SOMERSWORTH, N. H., January 7, 1913.

Resolved: That the matter of removing the brown-tail moth nests from the trees of the city be referred to the Committee on Roads, Bridges and Drains.

Passed January 7, 1913.

In Favor of Appointing a Committee of Three, Relative to Taking Action on the Report of the State Chemist, Regarding the Local Water Supply.

Resolved: That a committee of three, of whom the Mayor shall be one, be appointed by the chair, to meet the Board of Water Commissioners relative to taking action on the report of the State Chemist, regarding the local water supply, and that said committee report back to the council at their earliest opportunity.

Passed January 7, 1913.

PETITIONS.

SOMERSWORTH, N. H., April 1, 1912.

To His Honor, the Mayor, and the City Council:

Gentlemen: The undersigned citizens and tax-payers respectfully petition your honorable body to extend the concrete sidewalk, on the northerly side of South street, from the residence of Patrick McCarthy to the corner of South and High streets.

SOMERSWORTH, N. H., April 30, 1912.

To His Honor, the Mayor, and City Council:

Gentlemen: The need of a suitable fence bounding Forest Glade Cemetery is most urgent, and the Directors,

having in mind the erection of an iron fence along the street boundary, are soliciting donations from lot-owners and from friends of deceased persons, who are buried there, with gratifying success.

The estimated cost of such a fence is $2,500.00, and in order that the work may be completed at the earliest possible time, we would recommend that the city raise by note, a sum not exceeding $1,500.00, in anticipation of donations, same so reimburse the city, for the purpose stated herein before.

Very respectfully submitted,

Elisha C. Andrews,
Clarence A. Horne,
James D. Kennedy,
Cemetery Committee.

SOMERSWORTH, N. H., July 1, 1912.

To His Honor, the Mayor, and His Honorable Council:

Gentlemen: The Strafford County Scouts, Camp 1, respectfully request your approval of this petition for a refund of twenty dollars, ($20.00), the same being the amount paid by them for the use of the City Opera House, for their benefit held June 15, 1912.

Respectfully submitted,

Strafford County Scouts, Camp 1,
Fred C. Pearson, Jr., Scout Master.

Petition granted August 6, 1912.

To His Honor, the Mayor, and the City Council:

Gentlemen: The New England Telephone and Telegraph Company respectfully petitions the City of Somersworth, N. H., for a location of its poles and wires thereon,

and the necessary supporting and strengthening fixtures and wires, in the following named streets and highways of said city. Said company agrees to reserve space for one cross-arm at the top of all the above poles for telephone, fire alarm and police signal wires, owned by the city and used for municipal purposes. Said poles to be erected under the supervision of such officers as said city may designate.

Following are the streets and highways above referred to:

On High street between the end of our present line and Central Park, and a point opposite the residence of Frank W. Rogers.

Referred to the Committee on Roads, Bridges and Drains, with power to act, August 6, 1912.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen: We, the undersigned residents of Lincoln street of said city, consider the sidewalk on the easterly side of said street dangerous, therefore we earnestly request that you give it your early consideration, and grant us a new sidewalk from Prospect to Maple streets.

SOMERSWORTH, N. H., December 3, 1912.

To His Honor, the Mayor, and His Most Honorable Council:

Gentlemen: As the Boys' Reading Room has been discontinued, I would request the loan of one of the two tables now stored in that room, for use of the Strafford County Scouts, Camp 1, at their headquarters, the same to be returned in as good condition as when received.

Respectfully submitted,

Fred C. Pearson,
Scout Master.

ANNUAL REPORTS

OF THE

SEVERAL DEPARTMENTS

OF THE

CITY OF SOMERSWORTH

ENDING MARCH 1, 1913.

REPORT OF THE CITY SOLICITOR.

To His Honor, the Mayor, and the Honorable City Council of the City of Somersworth:

Herewith is submitted my report for the municipal year ending March 31, 1913.

There are at present a number of cases upon the docket of the Superior Court for the County of Strafford, in which the City of Somersworth has a vital interest, namely: Nos. 732 and 789 Equity, entitled, Dover, Somersworth & Rochester Street Railway Co. v. City of Somersworth; No. 559 Equity, entitled James H. Joyce v. City of Somersworth and Charles P. Andrews, City Marshal; No. 889 Equity, entitled James H. Joyce v. City of Somersworth; also Nos. 958, 959, 960, 961 and 962 Equity, the same being petitions for abatement of taxes brought by Daniel Wingate, Mathews & Stevens, Michael J. Casey, Sidney F. Stevens and Benjamin F. Hanson. Another case in which the city is more interested in a financial way than in any of those above mentioned is No. 966 Equity, entitled The Salmon Falls Manufacturing Company v. The City of Somersworth. This is an action brought by the Salmon Falls Manufacturing Company against the City of Somersworth, said company claiming that said city has wrongfully diverted and appropriated the waters of the Salmon Falls River, and further, that said city aforesaid is committing a continuous wrong and nuisance to the complainant in its business by reason of the city sewers emptying into said river.

The original claim in this matter as presented to the city for payment, asked for, approximately, $10,000.00 damages.

It has been a quiet year in all departments pertaining to our Police Court, a condition no doubt caused to a great

extent by the hard times which have prevailed in our community for the last two or three years, for it is a fact that when money is scarce there is likely to be a dearth of drunks, and such cases comprise a great part of the Police Court business.

I wish to thank those who have assisted me in my duties during the past year.

Respectfully submitted,

FRED H. BROWN,
City Solicitor.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Your library trustees submit their report of their doings for the fiscal year ending March 1, 1913, including herein as a part thereof the report of the Librarian, which fully covers the work of the library.

By the report herewith submitted, you will see that your trustees have expended the sum of $401.89 in repairs upon the library room.

This comparatively large expenditure of the money within our control became necessary because, during the last fifteen years, but a small amount of money has been expended in repairs.

A new hardwood floor has been laid and finished in the main room, a part of the large counter has been removed, the position of most of the stacks has been changed, admitting more light and air into the room, the electric wiring has been entirely renewed and is now concealed from sight, the entire room has been painted, and the chairs, tables and other furniture varnished, and new curtains furnished for the windows.

All of the books have been removed from the stacks, dusted and thoroughly cleaned, and the whole room cleansed.

It is believed that the whole library is now in a much more sanitary condition than it was before these improvements, and presents a much more pleasing appearance.

With the limited amount of money at our disposal, and with the expenditures made for permanent improvements

to the library rooms, it has been impossible to expend much money for new books.

Your trustees earnestly urge you, in considering the appropriations for the coming year, to look into the needs of the library and request that you appropriate at least $1,000.00 in addition to the library tax for the use of the library for the current year.

Report of Librarian.

To the Board of Trustees of the Somersworth Public Library:

Gentlemen: The report of the librarian showing the work of the library for the year ending February 28, 1913, is herewith presented.

THE YEAR'S GROWTH.

Whole number of books reported accessioned last year,		12,484
Added during year,		
By purchase,	198	
By gift,	26	
By Government,	138	
		362

In a backward glance over the work of the year, some changes may be seen to which we can point with pride. The condition of the room itself has been materially im-

proved. It has been thoroughly cleaned, a hardwood floor laid and the desks and bookcases rearranged. In order for this work to be done, the library doors were closed for nine weeks, but that the time was profitably spent, was evidenced by the many expressions of approval and congratulations showered upon us, when the public was once admitted. The cordial co-operation and courtesy of the trustees, which alone made this possible, were most heartily appreciated by the librarian.

The apparent lessening in circulation is only apparent and can readily be accounted for by the nine weeks when the library was closed. In reality it somewhat exceeds that of previous years.

In our purchase of current fiction we have endeavored, so far as our resources would allow, to keep abreast of the times. The life of a popular novel, even one of the so-called "best sellers" is at longest a comparatively ephemeral thing, and the time when the reading public demand these books is at the time when they are influencing vitally the thought and conversation of thinking people. Along this line, too, the comments of both young and old have shown appreciation.

The library, as a place of research, must necessarily suffer from comparison with those in larger cities with greater resources at their command.

The children frequent the library in large numbers and on the whole are quiet and orderly, and we believe derive pleasure and benefit from these visits.

The tables are well supplied with the current magazines and receive their full quota of interested attention.

It is our aim to make the library a place where young and old, high and low, may feel it is their right and privilege to come, and feel confident that they will receive courteous attention and interested assistance just so far as it is in the power of the attendants to render it.

With this end in view the librarian thanks the trustees

most heartily for their co-operation and friendly furtherance of her plans.

On April 10 last, the board of health appointed Napoleon Leduc, M. D. inspector of milk.

During the year I have made inspections of the sanitary conditions of the city, giving particular attention to out-buildings and sewer connections, and also to water and milk, and as a result, many changes were ordered and made.

In closing, I wish to thank all who have aided me in the performance of my duties during the past year.

AMEDEE COTE, Sanitary Officer.

STREET COMMISSIONER'S REPORT.

SOMERSWORTH, N. H., March 1, 1913.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen: In accordance with the provisions of the city ordinances, I herewith submit my first report as street commissioner for the fiscal year ending February 28, 1913.

STREETS.

All streets have been kept clean, and also all highways cleared of stone or other matter liable to impair good traveling, and put in good condition, and where grading was necessary, improvements have been made.

MACADAM.

The stretch of highway from the junction of Washington street to Pearl street has been macadamized.

ROADS.

We have graded the old Salmon Falls road, so called, between the Standard Oil station and Crockett's crossing; the Dover road, between Ernest S. Foss's and Orrin N. Billings's residences. The outside district surveyors have continued in keeping each of their districts in the best of repair. The bushes on every road in the outside districts have been cut from fence to fence, which was very much needed.

BRIDGES.

We have kept all bridges in repair; the one crossing the creek, this side of New Dam bridge, practically ought to have been re-built, which would have cost considerable, but instead of rebuilding, the timber of the same was taken out and filled in with dirt, which was much cheaper.

SEWERS.

All the sewers about the city have been cleaned out regularly, when needed, and kept in proper condition to secure good drainage. We have laid 365 feet of new sewerage starting from Wiggin's Court to Indigo Hill road, and have also extended same 75 feet on Indigo Hill road, placing one manhole at corner of Indigo Hill road and Main street, two new receivers between Indigo Hill road and Wiggin's court, and one large one on Indigo Hill road.

CURBING.

We have laid 1,330 feet of cement curbing. The curbing has been laid along the following streets: On the easterly side of Main street, from Depot street to the shoe factory entrance; from corner of Main and Depot streets, on the southerly side, to Union, and up Union, on easterly side, to Central street; from Mr. Philip H. Stiles's driveway, on the westerly side of Elm street, to the Somersworth house; have also laid 800 feet of cobble stones on westerly side of South street.

SIDEWALKS.

Concrete walks have been laid on the following streets, namely: On the easterly side of Main street, from Depot street to the shoe factory entrance; from the corner of Main and Depot streets to Union street; from the corner of Union and Depot streets to Central street; from Mr. Philip H. Stiles's driveway on Elm street to Somersworth House; on the westerly side of South street from Green to Portland streets, and also from the residence of Mr. Patrick McCarthy to High street; on the westerly side of Franklin street from the corner of Green and Franklin streets to West Green street; on the easterly side of West Green street from Franklin to Pleasant streets; on the easterly side of Noble street from High to Grand streets;

on the easterly side of Grove street from High to Grand streets; on the easterly side of Lincoln street from Prospect to Maple streets; on the easterly side of Linden street from the residence of Mr. Benoni Caron to the corner of Market and Linden streets; have also laid about 20 feet of new concrete on the westerly side of Market street in front of the office of the Queensbury mills; and laid about 10 feet of new concrete on the westerly side of High street at the corner of Highland and High streets. Have re-laid brick sidewalk on Green street from the corner of Franklin street to Mr. Peter L. Morin's place of business. We have also built good substantial sidewalks of ashes on the westerly side of Main street from Wiggin's Court to Mrs. Emma A. Kidder's residence; on the easterly side of Union street from Central street to Mr. John Riley's residence; on the Cemetery road from Mr. Charles L. Estes's farm to Forest Glade cemetery.

RECOMMENDATION.

I still recommend that the laying of sidewalks be continued, and that such work be thoroughly and permanently done, and would also recommend the repairing of other macadamized streets and have liberal appropriations made for improving same.

In closing, I desire to thank His Honor, the Mayor, and members of the city council, for their kindness and courtesy during the past year.

Respectfully submitted,

GEORGE LETOURNEAU,
Street Commissioner.

REPORT OF INSPECTOR OF PLUMBING.

SOMERSWORTH, N. H. March 1, 1913.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen: I herewith submit my report for the year ending February 28, 1913. During the year I have inspected twenty-seven sewer connections. This number includes the tapping of sewer mains in streets, and extension of such sewer service previously placed in buildings for the proper drainage of the several toilet and sanitary fixtures placed therein.

Respectfully submitted,

EUGENE J. MORIN,
Plumbing Inspector.

AUDITORS' REPORT.

SOMERSWORTH, N. H., May 16, 1913.

To the Honorable Mayor and the City Councils:

Gentlemen: We hereby certify that we have examined the books and vouchers of the city clerk and find same kept in form prescribed by the City Ordinances. The footings we find to be correct and after allowing for orders brought over from previous year and for unpaid orders, they agree with the books of the city treasurer. All monies which the clerk is authorized to collect are properly accounted for.

We have also examined, and find to be correct, books of the following officials: City treasurer, superintendent of water works, city messenger, clerk of police court and superintendent of Forest Glade Cemetery.

Respectfully submitted,

FRED K. WENTWORTH,
HARRY T. BOWDEN,
City Auditors.

REPORT OF COMMITTEE, RELATIVE TO IMPROVING CITY'S WATER SUPPLY.

SOMERSWORTH, N. H., February 4, 1913.

To His Honor, the Mayor, and the City Council of the City of Somersworth:

Gentlemen: Your committee appointed at the January meeting of this Honorable Body, to meet the board of water commissioners relative to improving the city's water supply, in accordance with the suggestions embodied in a report of the analysis received from the State Board of Health, having attended to the duties assigned them, beg leave to report as follows:

At a meeting of the committee and the board of water commissioners, it was voted to ask the co-operation of the State Board of Health, especially in improving conditions along the river bank above us, from whence a large amount of the difficulty we are now encountering come.

Accordingly, Chemist Howard and Professor Fletcher of the State Board met your committee and the water board on Friday of last week, and after an inspection of the water plant, discussed local conditions at considerable length, with the result that the following suggestions were deemed essential and one of them at least quite necessary to insure good water supply.

Namely: To sub-divide the filter bed, by a stone or cement retaining wall, in order that filtration of the water may be going on at all times, one part of the same operating, while the other is being cleaned.

The coagulating process for removing the present high color of the water, and the hypochlorite, or liquid chlorine treatment, for destroying disease germs, particularly in reference to typhoid bacilli.

The last-named treatment is considered most necessary

for immediate installation by your committee and the water board, to protect the health of our city, and with this in view, a representative of a firm, installing liquid chlorine apparatus, met the commissioners and your committee jointly, to explain the method of operating, which is comparatively easy.

The price of the apparatus installed, namely, $800.00, in view of the results to be obtained, as witnessed by cities using the same, is inconsiderable, and the cost of maintenance is estimated at about twenty cents per day, based on the amount of water now being used.

Your committee therefore respectfully recommend that provision be made for the immediate installation of a liquid chlorine apparatus for treating the city's water supply.

Very respectfully submitted,

Paul LaBonte,
Elisha C. Andrews,
James D. Kennedy,
Committee.

Arthur J. Seavey,
Charles F. Crockett,
Frank E. Hobbs,
Water Commissioners.

REPORT OF COMMITTEE ON PAUPER ACCOUNT.

SOMERSWORTH, N. H., October 1, 1912.

To His Honor, the Mayor, and City Council:

Gentlemen: Your committee, to whom was referred the resolution relative to the cost of supporting our poor, as compared with our sister cities, Dover and Rochester, having very carefully considered the matter, beg leave to report as follows:

Under the law, as we understand it, any person, or his dependents, in order to secure aid from any city or town in this state, must have gained a settlement therein, by having paid the taxes, legally assessed against them, for seven years in succession, during the ten years immediately preceding his last time of applying for support, otherwise aid must be secured from the county.

Your committee, in considering this matter, in order to secure a fair comparison of our expense in this department, have examined the reports of our city, Dover and Rochester, and also of the County of Strafford, and according to the last compiled reports, the following amounts have been expended, for the relief of unfortunates.

	DOVER.	ROCHESTER.	SOMERSWORTH.
COUNTY.	$5,806 07	$1,518 03	$ 878 80
CITY.	1,629 92	2,046 12	3,107 57
Total,	$7,435 99	$3,564 15	$3,896 37

From the above figures, it will be seen that the bulk of the expense of aiding the poor in our city must be paid from the city treasury, since, having gained a settlement here, the majority of our unfortunates must be cared for at the city's expense, whereas, a comparison of the figures will

show that, in the other cities, the expense falls heavily on the county, the poor, not having gained a settlement in a great majority of the cases in either city, and therefore aid must be rendered by the county.

From the last report of the city clerk to the State Board of Charities, we find that a total number of 109 persons were given aid last year by the city; of this number, 31 were orphans, 43 destitute children, and the remainder were cases of destitution, sickness, and old age. While we regret exceedingly a condition in our city which necessitates the aiding of so many unfortunates, nevertheless, it is a source of great satisfaction to us to know that none have been allowed to go hungry or cold, and that neither have they been permitted to suffer.

Very respectfully submitted,

ELISHA C. ANDREWS,
EPHREM BOUCHER,
Committee.

SIGNALS.

One stroke of the bell is the all-out signal.

2-2–2 strokes of the bell is for a brush fire, or a fire seen at a distance, where the department is needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

GENERAL RULES.

Firemen, as well as citizens, should familiarize themselves with the following rules for giving alarms of fire:

1. Never pull a box for a fire seen at a distance.

2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two

boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire.

3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in a track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.

4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Committee of Somersworth:

Gentlemen: I enclose herewith a report from the teacher of drawing and the teacher of sewing, the two subjects introduced into the schools during the past two years; the first, now in the second year of its trial, and sewing in the first. Believing in their adoption, before my recommendation to you, I more than ever believe it was a wise and practical thing to do, and heartily endorse the judgment of the teachers, as contained in their reports. Of the seventy-six first-class secondary schools in the state, sixteen are offering courses in vocational training. In the High school building, itself, I see but one opportunity to extend a course, already existing, namely: in the commercial course, by the adoption of the School Savings Bank as a part of their educational work, which could be so organized as to furnish the material for the study of banking as well as experience in office practice. The chief object is not so much the accumulation of money as it is the formation of the habits of saving.

We have come to measure, within the past few years, education by a new standard, the standard of individual achievement. This means that we have begun to differentiate the abilities of children, and to estimate the success of school work, not in terms of a general standard, but in terms of what each individual is able to do within the range of his own ability. It is evident that so long as individual teaching prevailed, the evils attendant upon a rigid classification could not occur. On the other hand, the spur that comes from mental contact was unknown. Where large numbers were to receive their preliminary instruction at small cost, the emphasis was placed on class teaching and class organization.

The importance of the individual is now being brought to

the front, and the principle is rather firmly established that the school should be organized to meet the varying needs of the individuals who comprise it; in other words, the children are divided according to their power really to grasp a new point. Thus, the teacher may have as many groups as she chooses. The pupils may not be grouped in all subjects, nor is the membership of the groups constant. Pupils may be promoted from group to group at any time. There may be two groups in reading, for example, and there may be three in arithmetic or language; consequently, the membership of the group is constantly shifting.

By this means, no child is slighted or neglected. The bright child does thorough work, and is kept up to the mark by reviews and drills. He learns how to study, and has time to form habits of study. Children in the slower group are given more time for instruction, and thus brought up to grade, although they have not covered as much ground in all subjects. Every child receives personal attention and instruction from the teacher, and since certain branches may be taught to the class as a whole, the advantages arising from having the class recite together may be retained. To be a success requires that the seat work be carefully planned for, and that the teaching of different parts of the same general subjects, by different teachers, coincide in method and follow consecutively.

Respectfully submitted,

FRANK S. SUTCLIFFE.

REPORT OF THE TEACHER OF DRAWING.

To the Superintendent of Schools and the School Committee of Somersworth:

Gentlemen : "Good taste is essentially a moral quality. Taste is not a part and an idex of morality, it is the only morality. The first, last and closest trial question to any living creature is, "What do you like?" The entire object of education is to make people not merely do the right, but enjoy the right thing. What we like, determines what we are; and to teach taste, is inevitable to form character."

John Ruskin.

The end sought in the teaching of drawing in our schools is the perception of beauty and the power to express it ; to train the eye to see beauty in things which would otherwise pass unnoticed. It teaches the children to be accurate and neat, not only in drawing, but in other subjects as well. As drawing is a sure expression of a child's mind, we should try to cultivate their minds, also guide them, so as to obtain the best results, and if we succeed in what we aim for, our best results will show in the years to come in plain and simple living, refinement of dress, and in that nobility of character that comes to all who love nature.

Much interest has been shown in all the grades and I feel that a great advance has been made over last year's work. Constant practice in drawing should be encouraged in the Primary schools, both because the foundation for future work is laid there, and because there many of the children obtain their only instruction.

In the Grammar school it has been a great pleasure for me to be among the pupils, for they show a great deal of ability and interest in the subject. It is surprising the progress they make from one lesson to another. They deserve a great deal of credit for their efforts and the work

that they accomplish. The teachers have also shown great interest in the subject. They have worked and talked with their pupils and that has enabled me to keep the interest of the pupils during the year.

In the High school drawing should be required, as it is now, by all Freshmen and Sophomores, and optional in the two upper classes. A course in mechanical drawing has been started. It will take some time to build up the course and not much progress will be seen for a while.

I wish to extend sincere thanks to the teachers, who have helped me so much in doing this work.

Respectfully submitted,

ALMA B. ROY,

Teacher of Drawing.

REPORT OF THE TEACHER OF SEWING.

To the Superintendent of Schools, and the School Committee of Somersworth:

Gentlemen: The introduction of manual training as a necessary part of education has raised sewing to an art of great importance. Outside of the practical advantage of being able to use the needle, the mental training, through hand and eye, has been proved to have a permanent effect on the character. The training of the hand makes it dextrous in other employments, therefore, of equal advantage to boys and girls in the Primary grades. Again, the appreciation of the many needs in American homes has called upon the teachers of the household arts to aid in the solution of these problems in wage-earning communities.

The course in sewing in the first four school years is selected from many fields. It should never be confined to one branch of industry. The following occupations all offer excellent opportunities for the choice of interesting work in the early grades; cardboard sewing, coarse canvass sewing, cord and raffia work, spool knitting, crocheting, weaving, darning, basketry, rug making, and designing.

In the first four grades, the boys and girls should be together in all of their classes. In our schools, it has been found practical for boys and girls, in the first five years, to work together, and both have shown equal interest and enthusiasm.

We have completed several articles in each grade, that are of use in the home and at school. At Christmas time, the pupils selected an article of their own choice, and made it as a gift to parent or friend.

While it is necessary to learn stitches and useful sewing, in the early grades, the child should not be allowed to do fine sewing, as that belongs to the later grades and older children.

All of the early steps in household art make an excellent foundation for sewing. The articles made have been simple in construction and of a character to appeal to their interests.

Finer and more technical work has been introduced in the Grammar grades, but here also, the practicing of stitches has been followed by their application in small articles. As the pupils gain in efficiency, cutting and garment-making will be accomplished.

Lessons in drawing and color have accompanied the course in sewing. The divorce of art from hand-work is responsible for much of our bad taste in dressing, and the homes are frequently filled witn vulgar furnishings; therefore, appropriate decoration, correct placing, harmonious color, and simplicity in result should be gradually attained through the application of art to the constructed article.

Our aim in all the work in sewing has been to discourage slipshod thought and work, and endeavor to develop pupils to think quickly and clearly, and to execute well.

The course in sewing has been arranged to cover the first year in the nine grades, but is subject to changes, to make it the most beneficial to our pupils, and to meet the financial condition in our city.

Respectfully submitted,

E. Maude Andrews,

Teacher of Sewing.

Class Ode.

We are standing to-night on the threshold of life,
Prepared to contend with its cares and its strife;
Yet still we are sad that the time has drawn nigh
When we to each other must murmur "Good-bye."
We've labored together through storm and through sun,
And hope that our work has been faithfully done:
Still let us push onward up hill and o'er vale,
With courage undaunted, and never say fail.

Perhaps, when around us life's battlefield lies,
To days of our youth we will turn longing eyes;
And though the swift years o'er our heads may slip by,
We ne'er can forget joys at Somersworth High.
Then firm be our step as the pathway we tread
With hearts free from sorrow, from care and from dread,
In the home of the blest, in the mansions serene
May the band be unbroken, this class of eighteen.

REPORT

OF

WATER COMMISSIONERS

FROM

MARCH 1, 1912, TO MARCH 1, 1913.

WATER COMMISSIONERS.

ARTHUR J. SEAVEY, Chairman.
CHARLES F. CROCKETT, Clerk.
FRANK E. HOBBS.

Arthur J. Seavey, elected March 26, 1907; term expires June 16, 1913.

Charles F. Crockett, elected March 28, 1908; term expires, June 16, 1914.

Frank E. Hobbs, elected March 27, 1912; term expires June 16, 1915.

REPORT OF WATER COMMISSIONERS.

To the Honorable Mayor, and City Council:

Gentlemen: In accordance with the city ordinances, your board of water commissioners herewith submit the following annual report for the year ending February 28, 1913.

Following the usual custom, the commissioners met at their office in the city building, June 17, 1912, and organized by electing Arthur J. Seavey, chairman, and Charles F. Crockett, clerk. John Parsons was elected superintendent of the water works; James A. Flanagan, engineer; and Charles Michel, assistant engineer at the pumping station.

PUMPING STATION.

The pumping station carries the usual amount of insurance. The old cylinders in the large pump have been replaced by new ones, so that the pumps are in good condition, and other repairs have also been made, when necessary. During the past year, plans and specifications have been received from three different firms of competent engineers, for replacing the smaller pump with a larger one, but nothing definite as yet has been done.

Under the orders of the Special Committee of the City Council and the Water Commissioners, a contract has been made with the Electro Bleaching Gas Company, to establish a plant at the Pumping Station, under a guarantee that their liquid chlorine will kill all bacteria, and especially typhoid germs, and expect to have it installed in the near future.

FILTER BED.

The filter bed has had its usual cleaning, and about three hundred cubic yards of sand has been replaced on the bed.

SERVICE PIPES.

Five new services have been laid during the year, making a total of 958.

METERS.

There have been added twenty-one new meters during the year, making a total of 317 now in use.

Receipts and Expenditures from March 1, 1912, to March 1, 1913.

Bills collected by superintendent,	$15,581 46
Bills approved,	14,067 75
Balance,	$1,513 71

Owing to the high price of coal for the past year, and the many repairs that have to be made, on account of the length of time that the system has been in operation, we are glad to be able to report so large a cash balance.

Respectfully submitted,

Arthur J. Seavey,
Charles F. Crockett,
Frank E. Hobbs,
Water Commissioners.

WATER WORKS BONDS.

The following is a statement of the water works bonds, showing the date when they mature :

Four bonds of $1,000 each, maturing October 1, 1913.
Four bonds of $1,000 each, maturing October 1, 1914.
Four bonds of $1,000 each, maturing October 1, 1915.
Four bonds of $1,000 each, maturing October 1, 1916.
Four bonds of $1,000 each, maturing October 1, 1917.
One hundred and thirty-two bonds of $1,000 each, maturing October 1, 1918.

Total amount of bonds, $152,000, with interest at four per cent.

REPORT OF SUPERINTENDENT.

To the Board of Water Commissioners:

Gentlemen: The following report of the superintendent for the fiscal year ending February 28, 1913, is respectfully submitted.

PUMPING STATION.

The pumps have worked continuously. The boilers have been duly inspected and favorable reports received from the Fidelity and Casualty Company.

The pumping station has been thoroughly overhauled, and repairs made, when necessary, and is now in good working condition.

STAND PIPE.

The stand pipe and a few minor leaks have been repaired during the year.

HYDRANTS.

Every hydrant in the city has been tested and repairs made when necessary.

DISTRIBUTION PIPING.

Leak in 8-inch main, Back street; leak in 10-inch main, Main street; leak in 8-inch main, Main street; leak in 16-inch main, Rochester street.

SERVICES.

Five new services have been laid during the year, making a total now in use of 958. Repairs have been made to many, owing to leaks, principally goose necks.

During the past year, plans and specifications have been received from three different firms of competent engineers, for replacing the smaller pump with a larger one, but nothing definite as yet has been done.

Under the orders of the Special Committee of the City

Council and the Water Commissioners, a contract has been made with the Electro Bleaching Gas Company, to establish a plant at the Pumping Station, under a guarantee that their liquid chlorine will kill all bacteria, and especially typhoid germs, and expect to have it installed in the near future.

About three hundred cubic yards of sand has been replaced on the filter bed, which we believe will be of great benefit.

METERS.

There have been added twenty-one new meters during the year, making the grand total now in use 317, classified as follows:

Dwellings,	284
Dwellings and stores,	4
Stores,	11
Schools,	5
Hotels,	1
